Mayor tollis Rotary whys of annexing

"No matter how I say it comeone will object to I'll day it bluntly. I don't ever expect to regret the decision of this administration to annex certain areas west of the city". These words are from the conclusion of Nicyof John & Stalles's remarks to the Recury Club yes-

esb can not palelegiffins cierta was not received hopely. the mayor pointed to a fractifility fredy more in 1982 by Bateman & Appoclates, Mnby Bateman & Accoclates, Mobile. Even then it was realized by Commission Council that by Commission Council that onnexation was needed, but it did not want to make the otep until it was really practical. In addition, its members held back until modernization of the milities system was complete. ha sould, and added that the municipality is not trying to

annex a lot of ocenery.
Almost immediately the court insues its order, the mayor said, Bay St. Louis could outply to the annexed area garbare collection, police and fire protection, and even atreet lighte. The mayor predicted that most of the annexed area would be provided conitary neweroge, gos and water with in about five years. "This doesn't mean all of those sorviced will be given to oporcely could bross whom one mile perved two or three houses."

From there the tour will continue to the 90-year-old home of Col. and Mrs. Nunez C. Pilet at 1524 North Beach.

Next stop will be at the Garden Center on Leonhard Avenue where assorted antiques--silver, china, lamps and other items of interest-will be on dioplay. Mrs. P.H. Daniel io chairman for this event.

Winding up the afternoon will be a tea for the pilgrims at Bay-Waveland Yacht Club. Mro. C.R. Beyer is chairman and members of the Hancock Art league will have an exhibit of their works. A musical program will be presented by Sister Auguota of St. Joseph Academy. Her selections will be Seguidilla by I. Albenizal and Danse Negre by Cyril Scott.

Hospital eyes end to surgery decine

How to convince local phyciciono and paricuso that many more ourded came can be hondlod or Kingoch General Rocattal was a matter of prime concern to the hospital's board of trustees at its March meeting last Wednesday night.

The financial matement for February reflected the continutog drop in ourgory. Roycaus from this carvice loss appath was \$616 against \$857 in February, 1966-a drop of \$201.

There's more labor back there than income, tructees complained. Treasurer John D. Rutherford, jr., obcerved expennen run twice the income. Trustee T.T. Rebowl, jr.,

ourgested a discussion with the local physicians to determine the cause of the decrease and how they might assist in building it back. Administrator H.J. Blackledge said he was "hop-ing and gambling" that with the new equipment and perconnel more local patients will have their ourgery at Hancock General rather than going to Gulfport or other places.

Blackledge added that surgery in March has been brisk with nine cases last week alone. He observed that cost of operating room nuroes might be pro-rated among the three departments using them-operating, emergency room and central supply—to give a better picture. But Rutherford argued that would be "ladding" themselves-- "we're just not doing enough surgery." The board treasurer also noted that the increase in medicare patients also is involved in the decime since few of those require sur-

The administrator noted that many patients go elsewhere for surgery because they don't want a general practioner to operate on them, adding, "though I can't understand why."

Several other decreases were shown in comparison with the same month last tees, however, were inclined to withhold judgment on them until

May when they will have a full year's operation under the new commission. One item in illd voormande edt ook reliceur which dipped from \$12,553 last February to \$7,912 in the same month this year. Since a regular pharmacist was not Mired until last April 25— Blocklodge came April 1—there was doubt accurate pharmacy socords were available before

Truoteso turned a fact thumbs down to an inquiry from Chifton Soucier, vice president, about reducing the \$100 deposit

17 hurt in school lows crash

A tie rod end on ti... neering mechanism of a Hancock North Central School bus dislodged early Tuesday morning throwing the vehicle out of control and into a ditch on the old Picayune road about one and a half miles west of Kiln, according had gone into executive session to Chester H. Blalock, transportation supervisor.

Seventeen children were hurt in the accident but notes seriously enough to require hospitalization.

Traveling his normal route, Jay Warner of Bay St. Louis, school bus driver and junior at North Central, was driving a opore bus as his regular vehicle was in for repair. With 35 greet ato aboard he was drie ving to his next pick-up point when the bus suddenly veered off the road and into the ditch. It came to rest in an upright position after striking an embankment on the far side of the

Of the 17 children hurt, only wo had cuts requiring stitches. Of these, one suffered facial lacerations and one a bad cut in the back of the head. The remainder mostly sustained bruices and skinning from being thrown violently around inside the unit from the force of

impact with the embankment. Although the windshield was broken in the accident, no glass

was found inside. Estimated speed of the bus time of the accident was 35 miles per hour. Bus speed limit at that location is 40.

Hancock bond sales perky

Hancock County is already off and running in U.S. Savings Bond sales this year.

The state report lists Hancock on the top 20 honor roll for the first two months of 1967. Actually Hancock ranks second with sales of \$44,787 toward a quota of \$98,000 or 45.70 per cent of the goal already

ochleved. In first place is Greene County with 50.60 per cent of its \$42,000 quota. Pearl River County is at 23.90 per cent and Harricon is at 19.01 per cent.

required from patiento for cdmission. Saucier, who is Best 3 trustee, sold he had been receiving a lot of criticism as bout this price and John C. Mauffray of Kiln, atlarge member, concurred in Saucier's report. Rutherford observed that

\$100 "won't last a couple of days. .they've got to come up with it now or later. . ." The administrator explained thin in not required if acceptable inpurance is indicated. A lengthy discussion ensued on processe ing rebate checks, charity cases and ascorted efforts of come patients to avoid payments.

Enlargement of the parking arean at the happital were considered since the city of Bay St. Louis is preparing to pave D u n b a r Avenus. Trustees directed the administrator to puroue with city and county officials the best means of handling the problem.

Three personal perconnel matters also occupied the

Mrs. Ben Morreale, a former hospital employe, asked the board to "clear my name" and publicly state why she woo 'fired" in December, Trustees (Cont. on Page 8-A.)

Seminary transfers

high school

High achool classes of \$3 Augustine Seminary of the Es ciety of Divine Word Missionaries will be transferred to St. Stanislaus College with the start of the 1967-68 session. Several Divine Word priesto will join the faculty of the Sacred Heart Brothers at St. Stan-

The minor seminary has been operating here since 1923 when St. Augustine was established. Present enrollment is 52 with eight staff members. There will be no change in the major seminary which has 31 students at the graduate level.

St. Augustine officials cited twin advantages from the new arrangement - the seminary will not engage as many priests in the clasproom as before and St. Stanislaus students will have readily available spiritual guidance from the priests who will teach here.

For the last two years, St. Stanislaus has had on its carnpus a scholapticate of the Brothers of the Sacred Heart, training young men of high school age who are preparing themselves to enter that order. The seminarians will endea-

vor to take part in as many activities of St. Stanislaus an their own special training will allow. The seminary tries to keep its high school program as close as possible to school lite at home.

Details of the new arrangement between the two inotitutions are being worked out by Brother Hugh, SSC president; Brother Lee, principal, and Brother Hubert, provincial-superior of the Sacred Heart; and Revs. Leonard Olivier, St. Augwatine principal, John Gasper, rector, and John Bowman, provincial superior of the society's couthern province.

St. Augustine's announcement follows by two weeks that of St Joseph Academy that it will cease operations with the end of the current ochool year.

Boy Scouts join litter war

RA Conservative View " Libertalia de somet ya proposta de la confectione de la confection

On Wednesday, March 1, a special House sub-committee releaced its report on the italian Flat plant now under construction in Ruscia. On Friday, March 10, Senator Mundt of South Dakota called public attention to a long list of items decontrolled for export to the

Soviet Union and other Communist countries.

If this column seems a bit belated in its ana-

lygig of these matters, it is only because it taken un alow thinkers a little time to see the beauty of the president's course of action. Plainly, a plot unfolds. It is a plot of such nolandid deviousness and such apparent innocence that only Mr. Johnson could have contrived it. To be sure, both the sub-committee and the senator confessed to having talked with the Central Intelligence Agency in reference to the administration's policy vise a-vis the Soviet Union, but no one should imagine that the CIA deviced either Opera-

credit for this conspiracy is Mr. Johnson's First, as to Operation Flat. On the surface, it has been made to appear that nothing more is afoot than a guarantee by the U.S. Export-Import Bank of a \$50 million credit for the Soviet Union. By this process, American taxpayers ostensibly will help the Soviets to build and finance a plant capable of producing 600,000 Fiats a year. Those who fail to think this venture through may imagine that the idea is to demonstrate America's good intentions-to engage, as the president has said, in "bridge"building."

tion Fiat or Operation Grape-liurs. The

Nothing could be farther from the truth. The object is not to succor the Soviets. The object is to launch them into debt and chaos. As every visitor to Russia surely knows, the conditions that govern automobile ownerohip and operation in the Soviet Union are, ina word, primitive This is not to pay thus there are few automobiles there. The broad streets of Moscow are full of them--big ugly Zims, medium ugly Moskevitches, little ugly Tatran. They are propelled at breakneck speed by fatalistic Russians intent on selfdestruction. At the time of my last visit, five years ago, the bag limit on pedestrians had been fixed at four a day. To acquire an automobile, one had to be at least a full professor or a sub-commissar. The cost was comething staggering; the wai ing time was three years; and the dispensers of gasoline were (a) few, (b) remote, and (c) open only at occult hours.

it to understood that, in general, the same conditions obtain to this day. The Soviet people have become stoically accustomed to them. But now! Now let us contemplate the infusion into Soviet cociety of 600,000 Fiato

The standard rule as to the Zim is that

The County Unit System of Road

Maintenance has been defined as a

system whereby one road department

serves the needs of the entire county,

thus permitting county-wide budgeting.

planning, maintenance, construction and

purchasing with a professional person,

usually an engineer, employed by the

county supervisors to administer the

county road department All general

policy and control is by the board of

for determining policies than under the

present "beat" system. Management of

the unit system, under the professional

person employed by the board, is com-

parable to the management of a large

corporation. The board employs the

manager, or "executive vice-president"

in corporation terms, and sets up guide-

lines in which he is to direct operations.

He is always responsible back to his

efficiencies, since road administration

for a county is simplified. Savings in

many ways are possible through the unit

plan of purchasing and planning. There

is maximum efficiency and use of mach-

inery and labor. This is easy to under-

stand when contrasted with the present

county operations where a policy-mak-

ing board divides its beats into five

units, and with each supervisor hand-

ling details of purchasing and planning

construction and mainteance - just for

The system lends itself to other

Supervisors would have more time

supervisors

policy-making board.

at least one of the doors will never close; but on the Flats, the doors close with perfect ence. Every Moskevitch suffers from bronchitio; but the Flato sing like Verdi tenero. Within 12 months after the first Pict appears, waves of dissatisfaction will ripple from Vladivostok to Leningrad. The shoddy quality of Communist workmanship will be vividly disclosed. The more Fiats that are built the fewer places will be found to park them. Muscovites will line up for 36-month loans People will fight over expressway routes. Smog will arise. In five years, the whole of the Soviet Union will be a mass of crumpled fenders, traific jams, automobile graveyards, and discarded Tigerino cards. Then a new Kerensky will arise. Revolution!

Operation Grape-nuts is the ideal complement The Commerce Department now has authorized American manufacturers to export both "breakfast cereals prepared for cooking," and "breakfast cereals prepared for serving." Canned hominy is in there too. To be oure, the list of newly decontrolled commodities also includes chemicals, scrap iron, rubber, iron ore, abrasives, riflecleaning compounds, solvents, asphalt, optical glass, and the like, but this is merely to deceive. Whatever could the Soviets do with chemicals and scrap iron?

The president's canny plot clearly is to hook them on Wheaties, Rice Krispies, Corn Flakes and Grape-Nuts. Who would have thought of this but Lyndon? He is a deep one. How better to stir up incipient rebellion in Communist lands than to promote the kind of early-morning tensions that affect American life? You buy three separate cereals for three separate children, and on the third morning each of them balks. They won't touch the stuff. The kitchen overflows with unfouched boxes. Family harmony is rent anunder. Tears are shed in mushy saucers. Tempers soar. Will affluence spoil Mr. Kosygin? It will topple the Kremlin

Neither the House group nor the senator from South Dakota, it has to be acknowledged, seemed fully to grasp the president's concealed intentions. The House group approved the Fiat deal, and the senator complained at the top of his lungs at the decontrolled list. "I would not sell the Communists anything." he said.

Let the senator persevere. These mysteries must have a sober explanation. On March 2, the Commerce Department issued another order, this one threatening ten years in prison and a \$10,000 fine for anyone who imports prohibited goods from anti-communist Rhodesia. Doubtless this, too, is a part of Mr. Johnson's plot. It just takes a little underdtanding.

Here are some of the more obvious

The road to nowhere...

WASHINGTON - He Chi Mando bluer rejection of Proceden Jelmson's February space offer has increased prosours on the president to escalate the war. The joint Chiefe of Staff have ocard raignitio cits each medit to lot along mid pairuegong acced two Holphong harrow, where Naval Intelligence claims more than a dozen Sovict and datellite oligo are delivering war goods each month, including the modern artillery and rockers that the Vict Cong have started using effectively against American bacco in South Victnam.

The provident has argued that the mining of Haiphong harbor would injure relations with Russia and at the same time force the North Victnamese to deposed on Red China for military supplies and this would increase Chinaca influence on the Hanol Rovernment

It is no secret that the Chinece have been pressuring Hansi to continue the war and Johnson has hoped that, by allowing Russian military shipments to get through, Soviet influence with Hanol would be increased.

The president also is convinced that Premier Kosygin has done his best to persuade the North Vietnamese to go to the trace table.

The Joint Chiefe of Staff are now telling the precident that, dince his strategy didn't work. Haiphong harbor should now be mined. This is the next big decision to be made inside the White House.

Hoffa complaining

Inmate number 39298NE, known outside of Lewisburg Federal Penitentiary in Pennsylvania as Jimmy Hoffa, has complained to violitors that pricon officials and guardo are pampering him

He is afraid stories may leak out that he is getting preferential treatment. This cort of publicity could hurt his chances of getting out early on parole. Well-meaning friends, chiefly Teamsters who know guards

at Lewisburg, have asked them to treat Hoffa right. The Teamstero chief appreciates their good intentions, but fears their kindness may hurt.

Meanwhile, Teamoters around the country, angry over the failing of their leader, are threatening to strike any company that gives them trouble.

Without Hoffa to rectrain them, a rash of Teamster strikes can be expected this year

Pricon life to so restrictive that it is impossible for Hoffa to run the union from his prison call. The result is that lowerlevel union leaders already are manauvering for power. This could lead to a fragmentation of the giant Teamsters Union. Schenley stock coup

Securities and Exchange Commission investigators are taking a very sharp look at the latest success story on how to make two million dollars on Wall Street in less than 10 minutes. It happened on the day that Schenley Industries, the liquor

company, and P. Lorillard, the tobacco company, went into a corporate huddle to finalize a long-planned merger. As the meeting dragged on, Schenley stockholders became

nervous that a snag had developed and there would be no merger. The New York Stock Exchange, though aware that the negotiations had not broken down, did nothing to halt the rumor. Sell orders began to pour in until the exchange ordered a halt in the trading. But minutes before the close of business, the market was

opened again to Schenley transactions. By this time, the pileup of cell orders had brocked the stock down eight points. Glen Alden Corporation quickly moved in and purchased 200,000 shares at the low price. Next morning when the financial world learned that the Schene ley-Lorillard merger was still in the works, the stock bounced

back up. Glen Alden sold out for a cool \$2,100,000 profit. It took less than 10 minutes of trading time for Glen Alden to pull out this profit. Now the SEC would like to know why the stock exchange

opened the trading for a few minutes before closing time, and did nothing to scotch the false rumor that merger negotiations had broken down. SEC investigatoro alco would like to know whether Glen Alden had incide information or merely two million dollars worth of luck.

Powell judges

Rep. Vernon Thomson, Wisconsin Republican who turned thumbs down on Adam Clayton Powell, is now revealed to have done what Powell did-namely, vacation on a British island at

the taxpayers' expense.

Last March Rep. Thomson let the taxpayers pay for a part of his trip to Bermuda. Easter is a fine time to visit Bermuda, but there is no more reacon for the taxpayers to put up \$400 for Thomcon's vacation than there was to subsidize Adam Powell's trips to Bimini.

Another Congressman who sat in judgment on Powell was Robert Nix of Philadelphia, a Democrat—and also a Negro. One of the charges against Powell was that he had placed his wife on his payroll, though she did not work for her \$20,000

It so happens that Robert Nix Jr., son of the Negro congressman, 10 paid \$20,000 a year supposedly to work in his father's office. However, young Nix practices law in Philadelphia, and it's impossible to find him any time working in or near Wash-

This column has tried repeatedly to call either Rep. Nix or Robert Nix jr., but the office doesn't even answer the telephone. Nix's absence record is beginning to look almost as bad an Powell'n. But Powell'n office at least did answer the telephone until he was kicked out of Congress.

What's sauce for the Democratic goods (.om Harlem should also be sauce for a Republican gander from Wisconsin or a Democrat from Philadelphia.

Merry-go-round

The White House has asked the Better Business Bureau to help otop the misuse of President Johnson's name and the presidential seal in advertising. Manufacturers have been using LBJ's initials, picture and seal to advertise everything from cigarette lighters to barbecus sauce. . The Washingtonian magazine has come up with some rather alarming date indicating that ultra-high frequency television transmitters may be poiconing the airwaves with radioactivity which could induce cancer. The evidence is not conclusive, but the whole matter should be thoroughly examined . . Just before President Johnson departed for Guam, he secretly ordered a cabinet tack force under Secretary of the Treasury Fowler to prepare a detailed study on how to convert the nation's wartime economy to a peacetime economy when the war in Vietnam ends. This is the first time Johnson has gone this far in planning for peace. . . it's a good bet that Fremier Ky of South Vietnam will not be invited to any more conferences, either in Washington, Guam, Honolulu, Manila or elcewhere. He'o too good at grabbing headlines.

Adam's seal

Sentiment on Capital Hill is veering away from any showdown with the courts over Adam Clayton Powell. Congresomen talk big publicly about thumbing their nose at the courts, bin privately they ding low. They don't wom to put themselves in the same position of flouring the federal courts that Adam Powell to in with the New York courts.

Furthermore, most congressmen realize they made a certous error when they did not poot Powell first and hich him out later. The constitution to quite clear that they had no right to exclude him from talding a ceas as long as he was 25 years old, had been a citizen of the United States for coven years, and was a resident of bio otore.

k's a foregone conclusion that Fowell will be overwhelmingly reolected. When that happens on April 11 you can be ours Congress will sear him—then take come disciplinary action after-

it's long been the belief of congressional leaders that when a congreptional district elects a representative, he should be ceated. Even after Mayor Jim "The Last Hurrah" Curley of Boston was cent to the juz, he was later replected by the people of Boston. It was their choice, even though a bad one.

The action on Powell will doubtless to cimilar. Disciplinary action will come after he's coated.
